Tunica Air Group Celebrates First Year In Business

Tunica Air Group celebrates their first year in business and looks forward to many more.

Formed by friends and family in September 2006 Tunica Air Group is comprised of seasoned Aircraft Maintenance Technicians and aviation professionals. Drawing from their vast aviation experience they have positioned Tunica Air Group to be a part of the current and future trends of today's aviation industry.

The labor force has an average of 17 years aircraft experience per employee with all facets of aviation covered from flight school line maintenance to 747 heavy checks. A diverse background of avionics, sheet metal, composites, and engine shop experience ensures that any job presented to Tunica Air Group, LLC can be handled with confidence. Roughly 75% of our employees served proudly in the Armed Forces with every branch being represented. Several of our employees dedicated their own time and money to initiate the restoration of the famous B-17F "Memphis Belle" prior to it being transferred to the Air Force Museum. Several still serve on local air show committees and with Angel Flight volunteers.

Their Aircraft Maintenance Technicians are available to serve customers 24-hours a day. Services are provided in the brand new 20,000-square-foot hangar next to the FBO at the Tunica Airport. Tunica Air Group offers the following Services: unscheduled maintenance, scheduled maintenance, aircraft cleaning and detailing and aircraft restoration.

You can meet up with these dynamic entrepreneurs this September at the NBAA conference in Atlanta, GA or at the Midsouth Air show in Millington, TN where they are proud contributors.

Tunica Air Group, LLC is located at 211 South Airport Blvd. in Tunica, MS at the Tunica Airport (KUTA). For more information, call toll free: 1-877-FLYTAG1 or in Mississippi, telephone 662-357-7350.
