

Tunica Air Group
Mr. Michael Silvius
211 S. Airport Blvd.
Tunica, Ms. 38676

Dear Mike,

On 11/29/08, we had aircraft N464AT arrive in Tunica AOG for a #2 Engine Fuel Control. The aircraft did not arrive until 11:15pm with an immediate outbound flight to Miami. You and your people established a plan of attack and arranged for manpower to assist with the fuel control change. I would personally like to thank Rich Silva, Mike Liffin and Anthony Bass. Between them, they were able to accomplish a 4-6 hour task in 3 hours. Without their help, exceptional knowledge and support we would have not made our flight schedule for the next day.

Working with you and all the people of Tunica Air Group is always a pleasure and we have come to expect and receive the highest level of support and professionalism available. Once again, kudos on a job well done.

Sincerely,

Mike Kimble
